Spotlight on the Tennessee Single Article Tax

Explanation of the Tennessee Single Article Tax

In Tennessee, an additional state sales or use tax applies to items sold in that state. At this time, the rate is an additional 2.75% on any single article sold, from \$1,600.01 up to and including \$3,200.00.

DynamicZip creates tax details and schedules from the information in the CCH ZIPsales Database. Due to its architectural limitations, the database can only contain one state tax detail. As a result, the Tennessee Single Article Tax cannot be imported automatically.

To correctly assess this tax, an additional state tax detail must be manually created and added to Tennessee's taxable sales or use tax schedules.
