Spotlight on DynamicZip Tax by Item Class

Some items or services are taxable in certain states and exempt in others. How does DynamicZip handle this situation?

With DynamicZip, you have two options available to deal with this situation. The DynamicZip solution is our [Tax by Item Class](#) feature. The Microsoft Dynamics GP solution is Advanced Tax Calculation. You can mix and match these solutions as desired. In other words, you can use Tax by Item Class for some items and Advanced Tax Calculation for others. Tax by Item Class is enabled in SOP - Sales Transaction Entry.
