**This service pack addresses the following issue:**

- The Receivables Tax Entry window and the Payables Tax Entry window allow the user to modify the Total Sales or Purchases amount and the Total Taxable Sales or Purchases amount of the individual Document Tax Details. Prior to this modification, the DynamicZip Tax Reports were restricting these amounts to the amounts entered on the face of the document. As of this modification, the DynamicZip Tax Reports will reflect the user modified amounts regardless of whether or not they match the face of the document.

For additional details visit the [modifications](#) page on our website.

**REMINDER:** Kamp-Data is a reseller of CCH products, purchase your ZIPsales Database and other CCH products from us at the same time as your DynamicZip purchase.
