Updated Product Releases

Miami, FL 33106 Tax Rate Change

- A tax rate change for Miami, FL 33106 has added a new geocode, 12000X0025, to the ZIPsales Database.
 - A bug has been identified in DynamicZip builds 70 and 71 that causes all Miami, FL tax schedules to import with a zero tax rate. This bug can be corrected using the workaround below.
 - No issues have been found in DynamicZip builds 72 and 73. However, you may still wish to use the workaround below to distinguish sales to this address from other Miami sales in the tax reports.
- [View](#) the workaround.

DynamicZip build 73-sp1a Released for Microsoft Dynamics® GP2010

- A SOP bug was corrected that could change nontaxable items to taxable when a user clicked on a nontaxable item's Tax Schedule ID field.
- A Restrict by Country Code bug was corrected that could cause Base on customers items to be treated as Nontaxable when entered after a Nontaxable item was entered. This bug would only occur if the Restrict by Country Code option was turned on and a customer had an incorrect Country Code.
- [Download](#) the service pack.
